KEF celebrates its 50 anniversary with further home audio ambitions-- the LS50 mini monitor, a tribute to the first speaker from KEF, the LS3/5A.

The company promises the speaker delivers a "soundstage experience" through a compact form factor.

Alongside patent-pending acoustic designs the LS50 features a rose gold Uni-Q driver, a cabinet with constrained layer damping and a baffle shape the company says has smooth on- and off-axis dispersion.

It weighs 7.2kg and measures 30 x 20 x 28cm with grille terminal. Frequency range (-6dB) is 47-45kHz, with 79-28kHz (± 3 dB) frequency response. Maximum output is all of 106dB.
