Accessory Power launches the GOgroove BlueSync LX-- a 2.1-channel speaker system complete with Bluetooth connectivity, full-range satellite speakers, built-in control hub and LCD display.

The speaker configuration features x2 satellite speakers with 3-inch drivers and a 4-inch high-excursion subwoofer. It connects to mobile devices via Bluetooth, as well as wired devices and microphones via aux-in 3.5mm jack.

The subwoofer features an LCD display, while the included remote allows for equaliser, playlist, Bluetooth sync and power control.
