

ZVOX Adds to Platinum Series

Written by Marco Attard
24. 09. 2014

ZVOX launches three additions to the Platinum Series soundbase range-- the SoundBase 570, 670 and 770, all featuring wood (MDF) cabinets, pedestal designs and single-cable connection with TVs.

The SoundBase 570 handles TVs up to 60-inch in size, the SoundBase 670 carries 70-inch TVs and the SoundBase 770 is designed for 80-inchers. Each carries 5 full-range speakers and 3 built-in powered subwoofers, as well as ZVOX PhaseCue virtual surround sound and AccuVoice vocal enhancement.

Other features include a BlueGiga Bluetooth chipset, Output Leveling (OL), a remote control learning and a low (9cm) profile design. Audio input come through x2 analog, x2 Toslink digital, x1 coax digital and x1 front-panel 3.5mm.

The new Platinum Series models ship from October 2014.
