

Smart's SNX-888+ provides an extremely flexible, simple and cost-effective AV solution via CAT5 cable for a range of environments(from residential to educational and corporate use).

Fitted in a 1U box, SNX-888+ features 8 integrated CAT5 inputs allowing for up to 8 remote multi-format video sources. The 8 standard HD15 inputs allow for up to 8 local multi-format video sources, whilst 8 integral CAT5 outputs allow for up to 8 remote screens.

Smart-e's AV matrices provide a 'one cable solution' with transmission of HD compatible signals (1080p + resolutions) digital/analogue audio, RS232/IR and inline power, all via a single CAT5 cable.
