Sony's 2500 lumens VPL-EX50 delivers images with a 900:1 high contrast ratio and benefits from 0.63 inch BrightEra inorganic 3-LCD panels by Sony.

The VPL-EX50's XGA resolution presents pin sharp presentations and colour-rich, video/film or gaming graphics. The design includes a built-in tilt angle of 8 degrees that automatically produces proportioned images; height adjustment and controls are simple to use and easy to get to.
