Digital Projection starts shipping the HIGHlite Cine 730-3D projector-- a 9000 lumen, 1080p home cinema projector first revealed at CEDIA 2013.

It features built-in HDBaseT (video, audio, control and ethernet over standard Cat5e/6), dual flash processing (DFP) for distribution of 3D content via 60Hz formats by frame-doubling the signal within the projector, HDMI 4.0 inputs and interchangeable lenses.

The HIGHlite Cine 730-3D is available now.
