

AWE will showcase brand innovations for Cineversum, Philips Pronto and Pioneer and reveal details of its new distribution agreement with Imerge on stands D14 and D15 at CEDIA Expo 2008 in London.

The Cineversum BlackWing Three HD projector will be on display for the first time in the UK and can be scrutinised by visitors in the on-stand home cinema demo room. This 1080p D-iLA projector has a full-glass optical lens, motorized zoom and focus and is compatible with Cineversum's Theatre Concept Kit to enable anamorphic projection on demand.

From its screens portfolio AWE will be showing another UK first, the brand new G9 Pioneer PDP-LX509D 50" Kuro screen. New Panasonic 8 series of screens will also be on show, with much improved black levels plus toughened glass fronts in response to an increasing number of Wii accidents!! Also look out for a European first from Panasonic.

Visitors to the stand will be able find out more about Imerge media and sound servers for which AWE is now the only authorised distributor in the UK.

AWE will also have hands-on demos for the Pronto TSU-9200, TSU-9400 and the TSU-9600. The AWE Solutions House will act as the star attraction, showing how equipment from a range

Cineversum BlackWing in AWE at CEDIA
