As projectors proliferate, business is growing for HotLamps. "We now operate Hotlamps across 14 countries," says David Johnson, General Manager of HotLamps Europe.

Hotlamps, the world's largest replacement lamp distribution business, is part of Maverick, the specialist distributor. "Because ISE is the ideal stage to meet customers, we're joining in the hosting of Club Maverick. We'll give visitors an overview of the benefits of dealing with us and most importantly look after them in a VIP style."

ClubMaverick offers a cocktail theme, complete with performances by UK celebrity Bar Wizards. HotLamps will show "a taste of our unique blend of products & solution with VIP treatment."

That VIP treatment at the Club includes a cloak room service.
