---

Calling it “...the longest life mini-projector available,” SiVal’s High Definition LCOS portable and quiet projector is suitable to watch HD movies or videos .

It features 1280 x 768 HD Native Resolution and supports 1080p, displays up to 980,000 pixels with 16:9 (native) and 4:3 aspect ratio.

The LED light source has a long life up to 30,000 hours. No warming up, no cooling down.

With LCOS technology, it also offers easy connectivity (multiple interfaces like HDMI, VGA, CVBS). HDCP supported

It’s obvious compact design (5.9”X 1.97” X 4.92” ) weighs 1.76 pounds, and importantly, this small device is green with mercury-free LED technology.
