

CEDIA Chairman Passes Away

Written by Marco Attard
28. 12. 2010

Longtime CE community member Randy Vaughan, 63, passed away on December 23.

Vaughan was a longtime CEDIA member and volunteer. By September this year he was semi-retired, split between duties as CEDIA 2011 chairman and systems specialist for the company he founded, Ambassador Enterprises (AE).

He also volunteered with other organisations, including one he founded and was president of--the National Systems Contractors Association (NSCA).

Our condolences go out to his family, friends, and his professional and personal friends in CEDIA.
