

Chief makes the specification of AV mounts easier for consultants, architects and designer with an updated online Design Centre, a library of downloadable information.

One can find Revit files, CAD, tech drawings, manuals, certification information and literature for 24 popular Chief products.

The downloadable documentation is also available on Autodesk SEEK.

Also getting an update are the free Chief binders. Filled with information on all AV solutions from the company, the binders also feature a selection guide providing typology-based recommendations.
