AV distributor Alltrade announces its 2015 Trade Show will be the biggest yet, with exhibitors including the likes of Antiference, Delta, Johansson, LEM Electronics, Sanus, Televes, Triax and Webro.

The show will also showcase products from HDL, BluCube, DemoPad, Global Invacom, Sonos, Blustream, CYP and Hoody, among others, making it "an all-encompassing event for custom installers, electrical retailers and aerial/satellite professionals alike."

"The Alltrade Trade Show gives installers and retailers unrivalled access to leading manufacturers and the two-way dialogue gives invaluable 'coal-face' feedback to those brands," the distributor says. "It is has become a real showcase for new products that can save installers time and money or add exciting new features for the end user. What better way to bring all this together by hiring a decent venue and throwing the doors open to potential customers to see us and our key manufacturing suppliers all under one roof!"

The Alltrade Trade Show takes place on 23 September 2015 at Oaks Hall, a Epsom Downs Racecourse, Surrey, with free entry for installers and retailers.
