

BMB Electronics Now Exclusive AVC Distributor

Written by Marco Attard
15. 11. 2011

The AVC Group confirms BMB Electronics as exclusive distribution partner for Benelux and some E. European markets-- handling the Niles, Elan, Xantech, Sunfire and Aton brand portfolio.

The brands cover most of the install solution gamut-- from Xantech IR emitters to Sunfire audio solutions, Aton automation systems, Niles multiroom audio products and the Elan g! control system.

BMB Electronics owner Willem Bok says “The AVC group’s products and solutions fit BMB and our customers very well and tick all the boxes of what we need from a supplier to be able to properly service our customer base to provide everything they need for a complete installation.”
