Metra Home Theatre Group announces the 16-channel Hybrid DVR (SPY-DVR16HYB2) able to handle the 4 most common video technologies, together with 16 new Spyclops cameras.

The Hybrid DVR provides more flexibility through compatibility with 4 types of video technology-- namely AHD, TVI, analog and IP. Installers can use any combination of technologies across all 16 channels, combining 4 components in one system. It is available either with or without an HDD, allowing dealers to bring costs down.

It records at 1080p resolution with up to 15fps for TVI, AHD and analog, and up to 25fps for IP.

Also launched is a new lineup of Spyclops cameras, all compatible with TVI, AHD, CVI and CVBS and featuring resolutions up to 1080p. The cameras are as follows:

- 4-in-1 Bullet Varifocal Camera-- features a 2.8 – 12mm manual varifocal lens for zoom and focus adjustment. Available in both grey and white, the 4-in-1 Bullet is IP66 water resistant and includes 42 IR LEDs for night vision viewing up to 40m.
- 4-in-1 Dome Varifocal Camera-- includes a 2.8 – 12mm manual varifocal lens for zoom and focus. Available in both grey and white, the 4-in-1 Dome is IP66 water resistant with 36 IR LEDs for night vision viewing up to 30m.
- 4-in-1 Convert Motion Sensor Camera-- designed for indoor use only, with a 3.6mm fixed, pinhole lens for a wider picture.
- 4-in-1 Mini Bullet Wide View Camera-- features a 3.6mm lens for a wider picture. Available in grey and white, the 4-in-1 Mini Bullet is IP66 water resistant with 18 IR LEDs for night vision viewing up to 20m.
- 4-in-1 Mini Dome Ultra Wide View Camera-- features a 2.8mm lens for ultra-wide picture. Available in grey and white, the 4-in-1 Mini Dome is IP66 water resistant with 18 IR LEDs for night vision viewing up to 20m.
- 4-in-1 Low Profile Dome Wide View Camera-- designed for indoor use and includes a
