Vivotek features the CC9381-HV at CEDIA Expo 2019-- a 180-degree H.265 panoramic anti-ligature fisheye network camera complete with Trend Micro IoT cybersecurity.

According to the company, CC9381-HV records 2560 x 1920 resolution footage at up to 30fps, with built-in 180-degree IR illuminators (up to 15m) providing complete video security during both day and night. Construction is IP66-rated for weather-proofing, and the housing is also IK10-rated against vandalism. Also included are a ±25° tilt lens and a built-in microphone.

"Realising the importance of cybersecurity, AI, and IoT in today's residential and commercial security applications, with its unique design, integrated technologies, and inconspicuous appearance that's compact in size, this camera is the ideal choice for indoor and outdoor scenarios such as residential homes, boutiques, convenience stores, banks, schools, parking lots, and more," Vivotek adds. "With an immense amount of feature sets designed for any kind of weather and lighting conditions, the budget-friendly CC9381-HV is the ideal panoramic anti-ligature fisheye network camera for numerous applications."

The CC9381-HV is available now.
