

CYP to Reveal Matrix Line-Up at ISE 2012

Written by Marco Attard
24. 01. 2012

CYP provides a look at the HD matrix line up due for launch at ISE 2012-- with a range of solutions handling technologies including HDMI, CAT and HDbaseT.

Products to launch at ISE include an 8x8 HDMI Matrix, an 8x8 HDMI and CAT (Switchable Output) Matrix, an 8x8 IR Matrix and an 8x8 HDbaseT Matrix. CYP says all solutions feature HDMI 1.4 specifications and common IR and RS-232 protocols.

The company promises all products aim for installer flexibility, pushing to new levels of AV installations.
